# NEW! REDUCED COST LIGHTER WEIGHT STARCH TRAYS

A lighter weight starch tray with the same benefits as our current trays but at a reduced cost – competitive to wood.

## WOOD IS DEAD

- » Price competitive to wood trays
- » Weight equivalent to wood trays
- » Easy integration with wood trays
- » Lighter than standard FRP trays
- » Same consistent drying time
- » Expels moisture and starch residue
- » Withstands temps -60 to 250°F (-51 to 121°C)
- » Secure stacking without warping
- » Compatibility with high-speed machines
- » Seamlessly molded design

## X-DTECT™ available only at MFG

- » Patent pending X-ray detectable composite material
- » Contaminant detection down to 1 cubic mm

## MFG LAB TRAY

- » 18" x 18" (457mm x 457mm)
- » Integrates seamlessly with old wood lab trays in lab depositors
